**Maximizing Screening Impact in North Carolina:  
Strategic Use of the NC Comprehensive Cancer Plan  
2025-2030 and mPATH Innovation**

**June 8, 2026**  
7:00 pm - 8:00 pm

**Sarah Arthur, MBA -  
Executive Director of  
the NC ACCCC**

**Neal Westphalen  
mPath Marketing  
Manager**

## Overview:

Local health departments and Boards of Health play a critical role in shaping cancer prevention and early detection across North Carolina. This webinar will provide participants with a strategic overview of the North Carolina Comprehensive Cancer Control Plan 2025–2030, created by the Advisory Committee on Cancer Coordination and Control. The Cancer Plan highlights key priorities and opportunities for local alignment. Participants will also learn about mPATH, an evidence-based digital screening initiative that supports increased cancer screening through patient-centered technology. The session will focus on how local leaders can leverage statewide strategy and scalable digital tools to improve screening rates, advance health equity, and drive population-level impact.
